

nexi SmartPOS A77

Compact and handy mobile smart terminal

The latest generation of payment terminals for modern, paperless sales environments. A customer can choose to use their smartphone to scan the QR code on the terminal display to generate a payment receipt. The receipt is sent in PDF format – no additional software or apps are necessary.

**SMART TERMINAL
WITH QR CODE
RECEIPTS**

ADVANTAGES AND FEATURES

- The next-generation smart terminal can be used like a smartphone, with the same design, size and features
- The brilliant 5.5" full touch display is significantly larger and has a higher resolution than conventional terminals, for ease of use
- Payment receipts are sent via innovative and environmentally friendly QR codes
- Large battery capacity of 5150 mAh for maximum battery life
- The payment app switches from Wi-Fi to mobile data automatically, for unbeatable flexibility and reliability
- A multi-network SIM card plus data are included as standard
- Additional features can be added with apps from the Nexi app store and the built-in QR and barcode scanner
