Integrated POS Lane 5000

Connection made easy

Visually appealing terminal with a clear operational structure and the latest technology. Expand the payment methods you offer through the diverse range of optional additional services. Benefit from the optimal connection to your checkout system.

**EASY TO
OPERATE**

With the high-resolution touch display and the clear operational structure, the Nexi Integrated POS Lane 5000 supports you in your daily card payment business. Payments made by smartphones equipped with contactless technology can be processed simply and quickly using the contactless reader. Connection to your checkout system is done via the powerful one-cable connection, and the fast processor ensures long-term security.
