Mobile POS Mobile Premium

Flexibility in a compact design

Mobility with no loss of performance: its compact size and ability to switch between 4G and Wi-Fi make the terminal the perfect partner for flexible service in cafes and restaurants, delivery services or personal transport.

**HANDY AND
COMPACT**

Handy and light, it supports all mobile sellers and restaurateurs with its ability to switch immediately between 4G and Wi-Fi (via soft key) and its clear, bright and large touchscreen. It also stands out for its elegant and high-quality design. Premium mobility for the highest demands, with one of the most compact and functional mobile terminals.

The contactless reader and signature pad are already integrated. The Nexi Mobile POS Mobile Premium is approved in line with the latest standards without a privacy shield.
