

nexi Mobile POS Move 5000

Experience mobility

Visually appealing terminal with a clear operational structure and the latest technology. Can be used flexibly through the integration into your existing Wi-Fi network or the use of mobile GPRS technology. Also available as a Bluetooth terminal. Switches automatically between networks depending on signal strength.

**CARD PAYMENT
TRANSACTIONS WITH
FUTURE SECURITY**

With the high-resolution touch display and the clear operational structure, the Nexi Mobile POS Move 5000 supports you in your daily card payment business. With the customer-friendly positioning of the contactless reader, even payments made with NFC-enabled smartphones are easy to manage. The terminal can be used flexibly thanks to communication via Wi-Fi, Bluetooth or mobile service. The fast processor and the large memory ensure that your terminal is secure over the long term.
